

MIKE Mine: Pricing

Licensing & Pricing:

Choose a package below based on your requirements to view data, manage data or view models. If you need to view your data in real-time you can always include our "Real-time Data" add-on.

Data Management Packages	Description and Modules	Yearly Subscription Price EUR
Data Viewer	Store all your historical data in a centralised database. Manage and visualise your data through a web-based platform, creating easily configurable dashboards to share with stakeholders or include in reports. Access all your mine assets and view GIS data on a map interface. Included Modules: Dashboard, Reconciliation	17,500
Data Manager	Upgraded version of Data Viewer. Upload and QA your data and assets. Configure warnings and be informed when your measured data shows deviations in your mine operations. Included Modules: Dashboard, Reconciliation, Data Admin	21,000
Model Viewer	Upgraded version of Data Manager allowing storage, visualization and sharing of models and results (FEFLOW and GoldSim). Reconciliation with observed data. Included Modules: Dashboard, Reconciliation (with model function), Data Admin	33,000
Add-on: Real Time Data	Connect to real-time data or historian	9,000

For further control you can add a "Model Scenario Management" package to your "Data Management" package

Model Scenario Management Packages*	Description and Modules	Yearly Subscription Price EUR
Model Scenario Manager	Define well pumping strategy with FEFLOW, run your scenario and compare results. Included Modules: Well Manager, Result Viewer	15,000

* Model Scenario Manager requires at least one of the packages of Data Management

Flexible Licensing Options

Choose the licensing model that best suits your needs. Our hosted solution offers a convenient subscription service where we manage everything for you, ensuring seamless operation and security (ISO 27001 certified). Alternatively, you may opt for a perpetual license, which allows you to host the software on your own cloud environment for complete control and long-term cost-effectiveness. Contact us for further information about the perpetual license.

Disclaimer: The prices stated above do not include implementation and onboarding costs, which are dependent on the amount of data and models to be implemented. Please contact us for further information.
